Q

Did you know?
Just because a wine farm is located in a certain region, doesn't mean that all the grapes come from the same location. Wine of Origin (WO) in South Africa is a certified system that guarantees the geographical origin of a wine – where the grapes were grown and harvested.

Here's what it means to you:
Controlled geography: The WO label tells you the wine comes from a specific area, such as a Region (e.g. Western Cape), District (e.g. Stellenbosch), or Ward (e.g. Elgin). It helps you trust the label, understand the style, and appreciate the unique characteristics tied to the soil, climate, and geographical location – known as terroir.

100 Years
1925-2025
PINOTAGE

Celebrating 100 years since the birth of South Africa's very own wine variety, Pinotage.

Did you know?

1959 marked a historic moment for Lanzerac, as it became the first label to commercially release a Pinotage. This vintage also earned global recognition as it was the first to use the term "Pinotage" on a wine label. Today, that release is celebrated as a defining milestone in South Africa's winemaking history.
